

Neo Design Studio is pleased to announce our new yachting and maritime design division led by KC Harrison.

KC joined us in 2015 following nearly twenty-five years working with a prominent Pacific NW yachting manufacturer. He brings to our practice a comprehensive understanding of the design and manufacture of luxury maritime vessels. His knowledge and expertise with interior design, interior architectural detailing, fabrication, and installation is evident in the body of his completed project work.

Led by KC, Neo Design Studio is available for new construction and retrofit projects. Please visit our website at: www.neodesignstudio.com for more information.
